Facilities Management
3450 14th Street, Riverside, CA 92501

NOTICE OF EXEMPTION

June 6, 2024

Project Name: Riverside Downtown Law Building District Attorney's Office (DA) Redundant Heating Ventilation and Air Conditioning (HVAC) Installation

Project Number: FM08220013714

Project Locations: 3960 Orange Street, north of 10th Street, Riverside, California, 92501; Assessor's Parcel Numbers (APNs): 215-373-019, 215-373-018

Description of Project: The Riverside DA is located in the Downtown Law Building at 3960 Orange Street in Riverside, California 92501. The facility currently has one HVAC unit to provide cool air in the server room on the 8th Floor and the unit periodically shuts down due to overheating. A redundant HVAC system is needed to provide backup cooling. The scope of work to the Project includes, but is not limited to, installation of a five-ton Water Source Heat Pump, electrical and mechanical work. All work will be completed in compliance with applicable building codes and health and life safety requirements.

The improvements to the mechanical system at the Riverside DA office is defined as the proposed project under the California Environmental Quality Act (CEQA). The operation of the site will continue to provide public services at the existing facility and will not result in a significant expansion of existing use. No additional direct or indirect physical environmental impacts are anticipated.

Name of Public Agency Approving Project: Riverside County

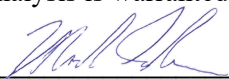

Name of Person or Agency Carrying Out Project: Riverside County Facilities Management

Exempt Status: State California Environmental Quality Act (CEQA) Guidelines, Section 15301 Existing Facilities Exemption; and Section 15061(b) (3), General Rule or "Common Sense" Exemption, Codified under Title 14, Articles 5 and 19, Sections 15061, and 15301.

Reasons Why Project is Exempt: The proposed project is categorically exempt from the provisions of CEQA specifically by the State CEQA Guidelines as identified below. The project will not result in any specific or general exceptions to the use of the categorical exemption as detailed under State CEQA Guidelines Section 15300.2. The project will not cause an impact to an environmental resource of hazardous or critical concern nor would the project include unusual circumstances which could have the possibility of having a significant effect on the environment. The project would not result in impacts to scenic highways, hazardous waste sites, historic resources, or other sensitive natural environments, or have a cumulative effect to the environment. No significant environmental impacts are anticipated to occur with the improvements to the mechanical system at the Riverside DA office.

- **Section 15301 (d)–Existing Facilities:** This Class 1 categorical exemption includes the operation, repair, maintenance, leasing, or minor alteration of existing public or private structures or facilities, provided the exemption only involves negligible or no expansion of the previous site’s use. The improvements to cooling system at Riverside DA office are needed to maintain an appropriate level of comfort for staff and patrons at the existing facility. The improvements to the existing mechanical system to maintain comfort are interior alteration to existing equipment within the facility would not expand the capacity of the site and would result in the continuation of public services; therefore, the project is exempt as the improvements meet the scope and intent of the Categorical Exemption identified in Section 15301, Article 19, Categorical Exemptions of the CEQA Guidelines.
- **Section 15061 (b) (3) – “Common Sense” Exemption:** In accordance with CEQA, the use of the Common Sense Exemption is based on the “general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment.” State CEQA Guidelines, Section 15061(b) (3). The use of this exemption is appropriate if “it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.” *Ibid*. This determination is an issue of fact and if sufficient evidence exists in the record that the activity cannot have a significant effect on the environment, then the exemption applies and no further evaluation under CEQA is required. See *No Oil, Inc. v. City of Los Angeles* (1974) 13 Cal. 3d 68. The ruling in this case stated that if a project falls within a category exempt by administrative regulation or 'it can be seen with certainty that the activity in question will not have a significant effect on the environment', no further agency evaluation is required. With certainty, there is no possibility that the project may have a significant effect on the environment. The improvements and repairs to the mechanical system at the Riverside DA office will not result in any direct or indirect physical environmental impacts.

Based upon the identified exemptions above, the County of Riverside, Facilities Management hereby concludes that no physical environmental impacts are anticipated to occur and the project as proposed is exempt under CEQA. No further environmental analysis is warranted.
