

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: City of Brentwood Solid Waste Organics Diversion Project

Lead Agency: City of Brentwood

Contact Name: Casey Wichert, Director of Public Works

Email: cwichert@brentwoodca.gov

Phone Number: (925) 516-6000

Project Location: Brentwood, Contra Costa County

City

County

Project Description (Proposed actions, location, and/or consequences).

The City of Brentwood is proposing to construct, operate, and maintain the Solid Waste Organics Diversion Project, consisting of organic waste recovery facilities capable of beneficially reusing organic waste (including the organic fraction of solid waste and wastewater biosolids as defined by Senate Bill 1383 regulations), receiving liquid organic wastes, and producing renewable natural gas and biochar. The project components include: (1) Expansion of the Solid Waste Transfer Station to accommodate new equipment to separate and prepare organic waste for a new anaerobic digester; (2) Installation of an anaerobic digester and associated infrastructure; (3) Installation of centrifuges, biosolids dryers, and pyrolysis units to process material from the anaerobic digester; (4) Installation of pipelines and an interconnector station to convey renewable natural gas generated by the anaerobic digester to a Pacific Gas & Electric main line; (5) Ancillary facilities related to above project components; (6) Realignment of a paved pedestrian path from Sunset Park to the Marsh Creek trail; and (7) Tree removal to accommodate new facilities and pedestrian path realignment. Project components will occur in the City's Solid Waste Transfer Station and City-owned property adjacent to the City's WWTP.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The following mitigation measures would reduce the potential for the Project to have potentially significant effects on Biological Resources, Cultural Resources, Geology and Soils, Noise, and Tribal Cultural Resources:
 MM BIO-1 (General Construction Measures); MM BIO-2 (Participation in the East Contra Costa County Habitat Conservation Plan); MM BIO-3 (Special-Status Amphibians and Reptiles); MM BIO-4 (Burrowing Owls); MM BIO-5 (Other Special-Status Birds); MM BIO-6 (American Badger); MM BIO-7 (Ringtail); MM CULT-1 (Accidental Discovery of Archaeological Resources); MM CULT-2 (Accidental Discovery of Human Remains); MM GEO-1 (Accidental Discovery of Paleontological Resources); MM NOISE-1 (Reduce Operational (Permanent) Stationary Noise).

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The lead agency is not aware of any areas of controversy regarding the Proposed Project.

Provide a list of the responsible or trustee agencies for the project.
