PROJECT TITLE: Replace Combination Building #6

LOCATION: San Clemente State Beach

COUNTY: Orange

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT: The existing combination building #6 (showers and restrooms) is deteriorating, outdated and no longer serves its purpose. It has exceeded its intended lifespan of approximately 50 years, particularly due to its location, adjacent to a marine environment. The project will demolish the existing Combination Building #6 and replace it with a new facility at the same location. The new building will provide accessible unisex showers, standard unisex restrooms and accessible unisex restrooms. The project will also include modifications to improve vehicular and pedestrian access, utility and drainage facilities and other minor associated improvements.

Further project details and measures to be implemented to avoid and/or minimize environmental impact may be obtained by submitting a request to the project Environmental Coordinator listed below.
