- Statutory Exemption.
State code number:

Reasons why project is exempt:

Section 15306 Information Collection (Class 6): The Class 6 Categorical Exemption consists of basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. The Project involves drilling holes in the asphalt/pavement to assess corrosion protection levels and cathodic system performance for two existing pipelines.

Section 15304 Minor Alterations to Land (Class 4): The Class 4 Categorical Exemption consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry or agricultural purposes and backfilling where the surface is restored. The Project involves drilling holes at 10-foot intervals and backfilling where the surface will be restored.

The Port has determined that none of the exceptions to the exemptions in the California Environmental Quality Act (CEQA) Guidelines Section 15300.2 foreclose the use of Categorical Exemption CEQA Guidelines Section 15306 (Information Collection) and 15304 (Minor Alterations to Land); therefore the Project is exempt from CEQA and no further environmental review is required.
