Project Description (Proposed actions, location, and/or consequences).

The City of Sausalito seeks to amend its 6th Cycle Housing Element to update goals, policies, and implementation programs and establish and update housing and land use strategies to reflect changing needs, resources, and conditions. The Amended 6th Cycle Housing Element (project) would to add housing and mixed use zones that correspond with slightly lower minimum densities to provide more variety in housing types, meet the City's RHNA requirements, and affirmatively further fair housing; make publicly-owned sites available for development during the 2023-2031 planning period; and clarify implementation of housing streamlining provisions. The proposed project would also amend the Land Use, Circulation, and Community Design, Historic, and Cultural Preservation Elements to be consistent with the Amended Housing Element. The City would rezone opportunity sites to create a minimum development capacity of 958 housing units (maximum 1,147 housing units), including a minimum of 697 units (maximum 811 units). Sites proposed for rezoning include sites subject to a vote of the electorate under Ordinance 1022 and Ordinance 1128.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Recirculated Draft Environmental Impact Report for the City of Sausalito Amended 6th Cycle Housing Element addresses the following issues:

- Executive Summary--excerpts pertinent to the Recirculated EIR
- Biological Resources--biological resources, special-status plant and animal species, riparian habitats, wetlands, sensitive natural communities, migratory movement, protected trees
- Transportation--transit, roadways, pedestrian and bicycle facilities, VMT, emergency access
- Alternatives--clarification of project alternatives, evaluation of no project, addition of one alternative

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provision of housing, wildfire, evacuation routes, traffic, capacity of utility infrastructure, tsunami hazard areas
