Project Title: Marathon Petroleum B84A/B86 Shore Power Project (CalSTA)
Harbor Development Permit 24-003

State Clearinghouse No:

Project Applicant: Marathon Petroleum Corporation

Project Location – Specific: 820 Carrack Ave, Berths B84A and B86; Harbor District 2 – Northeast Harbor

Project Location – City: Long Beach, California

Project Location – County: Los Angeles County

Description of Nature, Purpose and Beneficiaries of Project:

Installation of electrical infrastructure and associated equipment to accommodate shore power for vessels at Berths B84A and B86 to comply with the California Air Resources Board Ocean-Going Vessels At-Berth Regulation: Installation of one (1) crane with 100-foot reach and cable management system 20-foot by 30-foot on a steel base on the existing wharf at Berths B84A and B86; Installation of a new 135-foot by 170-foot electrical substation adjacent to existing Southern California Edison electrical supply and associated electrical conduit to the berths, installation of new 25 megavolt-amperes (MVA) transformer, switchgear, protection, relay and telecommunication elements. Size and capacity of associated electrical equipment are based on preliminary design and are pending results of Method of Service Study being prepared by Southern California Edison.

Name of Public Agency Approving Project: Port of Long Beach

Name of Person or Agency Carrying out Project: Marathon Petroleum Corporation

Exempt Status: (check one):

- Ministerial Exemption [Section 21080(b)(1); 15268];
- Declared Emergency (Section 21080(b)(3); 15269(a));
- Emergency Project [Section 21080(b)(4); 15269(b)(c)]
- Categorical Exemption.

State type and section number: Section 15303 New Construction or Conversion of Small Structures and Section 15304 Minor Alterations to Land

- Statutory Exemption.
State code number:

Reasons why project is exempt:

Section 15303(d) New Construction or Conversion of Small Structures (Class 3): The Class 3 Categorical Exemption consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. The proposed Project would involve construction of small structures and associated electrical infrastructure to supply shore power to existing vessels calling at the terminal involving construction of one new crane with a 100-foot reach and cable management system on a 20-foot by 30-foot steel base, a new electrical substation 130-foot by 170-foot in size, electrical conduit and a new 25 megavolt-amperes (MVA) transformer, switchgear, protection, relay and telecommunication elements.

Section 15304 Minor Alterations to Land (Class 4): The Class 4 Categorical Exemption consists of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry or agricultural purposes. Examples include, but are not limited to: (f) trenching and backfilling where the surface is restored. The Project would involve trenching to install the necessary cables associated with the shore power cranes where the surface is restored.

The Port has determined that none of the exceptions to the exemptions in the California Environmental Quality Act (CEQA) Guidelines Section 15300.2 foreclose the use of Categorical Exemption CEQA Guidelines Section 15303 (New Construction or Conversion of Small Structures) or Section 15304 (Minor Alterations to Land); therefore, the Project is exempt from CEQA and no further environmental review is required.
