Present Land Use/Zoning/General Plan Designation:

Medium High Density, RM-MH: Residential – Mobile Home Park

Project Description: (please use a separate page if necessary)

The proposed Project includes the abandonment or removal of approximately 20 existing septic systems, installation of 1 lift station, installation of approximately 3,000 linear feet of 6-inch diameter gravity sewer main, installation of 102 sewer service lateral connections to the new internal 6-inch main, and installation of approximately 15 on-site manholes. The minimum depth of the pipe would be 3-feet, and the trench would be cut through either paved or previously disturbed areas. The connection to the City's sewer collection system would be made by either trenching or boring across North Golden State Boulevard. This would be contingent upon criterion such as safety and economic viability. This connection would consist of removing and reconstructing the existing City manhole adjacent to the north-bound travel lane of Golden State Boulevard.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
