

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Description (Proposed actions, location, and/or consequences).

Silicon Valley Power (SVP) proposes to construct the NRS to KRS 115 kV Transmission Line Project (Project), which would include constructing a new, 2.24 mile long overhead and/or underground 115 Kilovolt (kV) transmission line between two existing facilities, Northern Receiving Station (NRS) and Kifer Receiving Station (KRS), in the City of Santa Clara (City).

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Potential impacts to air quality, biological resources, geology and soils, hazardous materials, hydrology and water quality, transportation, and cultural and tribal cultural resources would be less than significant with implementation of: MM AQ-1 (Implement Basic Construction Air Quality Mitigation); MM BIO-1 (Implement Worker Environmental Awareness Program), MM BIO-2 (Biological Monitoring), MM BIO-3 (Conduct Preconstruction Surveys for Special-Status Wildlife and Implement Avoidance Measures); MM BIO-4 (Preconstruction Nesting Bird Surveys and Nest Protection); MM BIO-5 (Preconstruction Bat Survey and Implement Avoidance Measures); MM BIO-6 (Tree Protection Measures for Retained Trees); MM CR-1 (Worker Training and Management of Unanticipated Discoveries of Historical Resources, Unique Archaeological Resources), MM CR-2 (Treatment of Human Remains); MM G-1 (Conduct Geotechnical Investigations), MM G-2 (Worker Training and Management of Paleontological Resources); MM H-1 (Hazardous Substance Control and Emergency Response), MM H-2 (Soil and Groundwater Management); MM HYD-1 (SWPPP or Erosion Control Plan Development and Implementation); MM T-1 (Construction Traffic Control Plan); and MM TCR-1 (Management of Unanticipated Tribal Cultural Resources).

Mandatory Findings of Significance - The Proposed Project's impacts would not be cumulatively considerable and cumulative impacts would be less than significant with the implementation of the aforementioned mitigation measures.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Electromagnetic Fields

Provide a list of the responsible or trustee agencies for the project.

None.
