

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Macdoel Fire Station

Lead Agency: California Department of Forestry and Fire Protection (CALFIRE)

Contact Name: Christina Snow

Email: christina.snow@fire.ca.gov Phone Number: 916-216-0553

Project Location: Macdoel Siskiyou
City County

Project Description (Proposed actions, location, and/or consequences).

The Project includes construction of a 2-engine fire station single building with 16-bed barracks and 3-bay apparatus (9,296 sf), office/administration building (2,047 sf), storage building (247 sf), and pump building (648 sf). Site development will include earthwork, storm drainage and treatment, driveways, curbs and gutters, walkways, fuel vault (1,500g diesel/500g gas), site lighting, enclosed generator, electric vehicle chargers, hose drying rack, trash enclosure, hazardous materials storage locker, fencing and gates, flagpoles, station monument and sign, and landscaping. Utilities will include water tanks (fire protection and domestic), water well, water distribution, sanitary sewer and treatment/disposal system, electrical power distribution, ground-mounted solar farm, liquified petroleum gas tank and distribution, and communication cabling. Demolition work includes the destruction of existing water wells.

The project is located on State Highway 97 and does not have a current address. Location details are as follows: Zip Code - 96058 | Total Acres - 36.7 | Parcel Number - 003-380-010 | Township - 46N | Range - 1W | Section - 4 | Base - MDBM.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Aesthetics - Visual changes from undeveloped to developed. Mitigation: Addition of landscaping to reduce hardscape impacts and approval of building colors to blend in with the surrounding landscape. Cultural Resources: In the event that inadvertent unknown resources are discovered a CALFIRE archaeologist will be contacted and consult with Native American representatives to determine appropriate course of action. Should human remains be discovered, work will immediately cease and the County Coroner and CALFIRE archaeologist will be contacted to evaluate findings and determine appropriate course of action. Geology and Soils: Potential Liquefaction and California Building Code Requirements require the contractor to coordinate with a Geotechnical engineer to ensure proper subsurface building requirements and implementation of design standards.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None identified.

Provide a list of the responsible or trustee agencies for the project.

California Department of Transportation (District 2). The project is on State Highway 97.
