Present Land Use/Zoning/General Plan Designation:

Community Commercial (General Plan) and Community Automobile-Oriented zone

Project Description: (please use a separate page if necessary)

The project would adaptively reuse an existing office building into private housing for students enrolled in California State University, Long Beach with 149 student residential suites (593 beds), totaling approximately 73,486 sf of residential area. The project would also construct a new 728 sf pavilion building that is designed to activate the street front along Clark Avenue. The project would incorporate approximately 22,523 sf of new accessible at-grade open space as well as indoor and outdoor common and private open space for project residents and guests. The project would utilize the three levels of existing subterranean vehicular parking and would include a total of 364 parking stalls (218 standard spaces, 19 accessible spaces, 127 tandem spaces). The project would also include 150 bicycle parking spaces on the first level of subterranean parking. The majority of construction would involve tenant improvements to the interior of the building. The project would largely maintain the exterior of the existing building.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
