**Present Land Use/Zoning/General Plan Designation:**

Low Density Residential, ES-R

**Project Description:** (please use a separate page if necessary)

The proposed project would result in the construction of a 114-square-foot parking pad, concrete retaining wall, fence, and gate. No modifications to the existing residential structure are proposed. The proposed parking pad would be located within the 20-foot minimum front setback, required in the Environmental Safety-Residential Zoning District (E-SR), on the eastern side of the parcel. Construction of the proposed parking pad would require widening of the existing 13-foot-wide curb cut at the southwest corner of the project site by 9 feet to 22 feet. The proposed concrete retaining wall would range from 2 feet and 6 inches to 3 feet and 6 inches, in height and would be located along the eastern portion of the parking pad. The concrete retaining wall would be located on both the uphill and downhill slopes of the existing driveway.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
