Project Description: (please use a separate page if necessary)

Sonoma County proposes to repair and restore the left (east) bank of the Russian River to prevent ongoing erosion and protect River Road in the community of Geyserville, California. The project is centered near 38.721180°, -122.901296°, near approximately 1,000-feet northwest of the intersection of Fay Ranch Road and River Road, and near where River Road turns northward away from the Russian River. The proposed project is needed to protect River Road, agricultural lands, private property, and privately owned structures adjacent to the bank of the Russian River at this location against further damage and/or loss due to continued riverbank migration, and to provide restoration of aquatic and riparian habitats that have been lost due to scour and lateral channel migration

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
