Present Land Use/Zoning/General Plan Designation:

Industrial/Light Industrial

Project Description: (please use a separate page if necessary)

The Project would include a new secondary clarifier, new aeration basin, new 42-inch air header, new return activated sludge pump station, improvements to the primary influent pump station and blower building, secondary clarifier splitter box, and pipelines. All construction activity would be conducted within the existing treatment plant boundary; a vacant parcel owned by the District near the entrance to the WWTP would be used for staging, stockpiling of materials, and construction office trailers and parking. The District intends to construct these facilities as a single project, however given the uncertainty with project costs, may elect to construct the facilities in phases.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
