

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Banta-Carbona Irrigation District SGMA Phase 2 Conjunctive Use Project

Lead Agency: Banta-Carbona Irrigation District

Contact Name: David Weisenberger

Email: dweisenberger@banta-carbona.org Phone Number: (209) 835-4670

Project Location: Unincorporated area of San Joaquin County

City

County

Project Description (Proposed actions, location, and/or consequences).

The Project will provide an average annual volume of 2,400 acre-feet per year of surface water to replace groundwater pumping, eliminate a projected average annual 800 acre-foot deficit, and provide a factor of safety for modeling inaccuracies and climate change uncertainties. The pump station expansion required to deliver the surface water will consist of an addition of two (2) new concrete pump bays. Two (2) pumps will be installed and connected to an existing thirty-six (36) inch diameter pipeline. There will be one (1) thirty-five (35) cubic feet per second (cfs) pump with a 350 horse power (hp) motor, and one (1) fifteen (15) cfs pump with a 150 hp motor. Associated electrical equipment will be required to operate the two (2) small pumps and motors. One small security building will be constructed to protect the electrical equipment from theft and weather. The Project will consist of construction of a minimum of twelve thousand (12,000) linear feet of 18- to 36-inch diameter pipelines, and expansion of an existing pump station constructed through irrigated farmland that has been continuously disturbed for the past several decades.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

None.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A.

Provide a list of the responsible or trustee agencies for the project.

None.
