Project Title: East Valley Water District Well No. 129 Project

State Clearinghouse Number: 2024080915

Project Location: The East Valley Water District (EVWD or District) service area is located in southern California within southwestern San Bernardino County. The project will occur within the eastern part of the District's service area. The potential well site is located northwest of the intersection of Calle Del Rio St. and Vista Clara St., just south of Oak Creek in the City of Highland. The project is located within the USGS Topo 7.5-minute map for Redlands, CA, and is located in Section 1, Township 1 South and Range 3 West, San Bernardino Meridian. The approximate GPS coordinates of the project site are 34.112523°, -117.139739°.

Project Description: The District seeks to install a new well, which would aid the District in meeting current and future demand. Well No. 129 is proposed to be located within a less than one acre portion of an approximately 2.37-acre parcel (Assessor's Parcel Numbers [APN] 121038110) a site northwest of the intersection of Calle Del Rio Street and Vista Clara Street, south of Oak Creek in the City of Highland. The District owns APN 121038110, which presently contains two 3-million gallon steel water storage reservoirs. The site is referred to as EVWD Plant No. 129.

The site would include the following features: the new well (wellhead); an 8" diameter pipeline connecting to the District's booster pump station onsite; a 4' diameter reinforced concrete pipe that extends 2' above grade and 16" RCP drain line; chlorine and orthophosphate dosing systems; a 55' x 20' Concrete Masonry Unit block building with a standing seam metal roof enclosing the wellhead, discharge header, PTW header, electrical equipment, and chemical facilities. The District anticipates that the new well will be drilled utilizing the reverse circulation rotary drilling method to about 550 feet below ground surface, based on the depth of the District's nearby well. The objective for the well is to generate 25 to 150 acre-feet of potable groundwater on a monthly basis.

Finding: East Valley Water District's decision to implement this proposed project is a discretionary decision or "project" that requires evaluation under the California Environmental Quality Act (CEQA). Based on the information in the project Initial Study, the District has made a *preliminary* determination that a Mitigated Negative Declaration will be the appropriate environmental determination for this project to comply with CEQA.

Initial Study: A copy of the Initial Study can be obtained³ electronically at the District's office at 31111 Greenspot Road, Highland, CA 92346. The Initial Study can also be found at the District's Website: www.eastvalley.org. The public review period for the Initial Study began August 26, 2024 and ended on September 25, 2024.

Mitigation Measures: All mitigation measures identified in the Initial Study are summarized on beginning on Page 86 of the Initial Study and are proposed for adoption as conditions of the project. These measures will be implemented through a mitigation monitoring and reporting program if the Mitigated Negative Declaration is adopted.

Project Location

The East Valley Water District (EVWD or District) service area is located in southern California within southwestern San Bernardino County. The project will occur within the eastern part of the District's service area. The potential well site is located northwest of the intersection of Calle Del Rio St. and Vista Clara St., just south of Oak Creek in the City of Highland. The project is located within the USGS Topo 7.5-minute map for Redlands, CA, and is located in Section 1, Township 1 South and Range 3 West, San Bernardino Meridian. The approximate GPS coordinates of the project site are 34.112523°, -117.139739°.

Project Description

The District seeks to install a new well, which would aid the District in meeting current and future demand. Well No. 129 is proposed to be located within a less than one acre portion of an approximately 2.37-acre parcel (Assessor's Parcel Numbers [APN] 121038110) a site northwest of the intersection of Calle Del Rio Street and Vista Clara Street, south of Oak Creek in the City of Highland. The District owns APN 121038110, which presently contains two 3-million gallon steel water storage reservoirs. The site is referred to as EVWD Plant No. 129.

The site would include the following features: the new well (wellhead); an 8" diameter pipeline connecting to the District's booster pump station onsite; a 4' diameter reinforced concrete pipe that extends 2' above grade and 16" RCP drain line; chlorine and orthophosphate dosing systems; a 55' x 20' Concrete Masonry Unit block building with a standing seam metal roof enclosing the wellhead, discharge header, PTW header, electrical equipment, and chemical facilities. The District anticipates that the new well will be drilled utilizing the reverse circulation rotary drilling method to about 550 feet below ground surface, based on the depth of the District's nearby well. The objective for the well is to generate 25 to 150 acre-feet of potable groundwater on a monthly basis.

This is to advise that the East Valley Water District has approved the above described project on Lead Agency Responsible Agency

October 23, 2024 and has made the following determination regarding the above described project:
(Date)

2024 OCT 25 PM 3:35
 CLERK OF THE BOARD OF SUPERVISORS
 SAN BERNARDINO COUNTY
 CALIFORNIA

Notice of Determination, page 2 of 2

1. The project [will will not] have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
 A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [were were not] made a condition of the approval of the project and a Mitigation Monitoring and Reporting Plan was adopted.
4. A Statement of Overriding Considerations [was was not] adopted for this project.
5. Findings [were were not] made pursuant to the provisions of CEQA.

This is to certify that the Mitigated Negative Declaration/Initial Study and record of project approval is available to the general public at:

East Valley Water District: 31111 Greenspot Road, Highland, CA 92346
