Project Description: (please use a separate page if necessary)

The project would involve the demolition and removal of an approximately one thousand two hundred ten (1,210±) square foot barrack structure and the removal of overhead electrical lines and panels currently serving the barrack structure and adjacent mess hall. The project would also involve the installation of three hundred fifteen (315) linear feet of two (2) inch diameter buried electrical conduit and electrical panels to restore connectivity to the mess hall. Approximately eight thousand nine hundred fifty-one (8,951±) square feet of vegetation clearance would occur. Several other activities would occur in accordance with mitigation measures recommended for adoption, including revegetation, translocation of existing plants, pre-construction surveys, installation of temporary fencing, and others.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
