Project Description (Proposed actions, location, and/or consequences).

The project proposes to add five structures with a total of 158 boat slips accommodating boats of various sizes to the existing Pleasure Cove Marina. The slip structures would be attached to a floating dock, which in turn would be connected to the shore via a gangway ramp. The slip structures and dock would be held in place by concrete anchors set on the bottom of Lake Berryessa; stainless steel cables would connect the facilities to the anchors.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project could not have a significant effect on the environment and a negative declaration will be prepared.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None known at this time.

Provide a list of the responsible or trustee agencies for the project.
