

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Former International Recycling and Towing Site Corrective Measures Proposal

Lead Agency: Department of Toxic Substances Control

Contact Name: Stuart St. Clair

Email: Stuart.StClair@dtsc.ca.gov Phone Number: (559) 297-3905

Project Location: Fresno (unincorporated), Fresno County

*City*

*County*

Project Description (Proposed actions, location, and/or consequences).

The Corrective Measures Proposal (CMP) addresses contaminated soil at the former International Recycling and Towing facility located at 3270 South Golden State Boulevard in unincorporated Fresno County (APN 330-070-06). The CMP encompasses an approximately 6.5-acre area of a 19-acre parcel and addresses Site soils impacted with concentrations of petroleum hydrocarbons, arsenic, cadmium, chromium, lead, mercury, polynuclear aromatic hydrocarbons (PAHs), and polychlorinated biphenyls (PCBs) that exceed applicable action levels. The CMP proposes to clean up the Site through on-Site treatment of lead-impacted soils followed by excavation and off-Site disposal of soils. The contaminated soil will be transported to a State-licensed disposal facility in covered trucks operated by a licensed hazardous waste trucking contractor. On-Site environmental controls will include dust monitoring and suppression to protect the surrounding community during cleanup activities. The cleanup activities are estimated to begin in Fall 2024 and be completed within three months thereafter.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources: Worker awareness training for special-status species and other sensitive resources; avoidance measures for San Joaquin Kit Fox, Burrowing Owl, nesting birds and raptors.

Cultural Resources and Tribal Cultural Resources: Cultural resources sensitivity training for workers; measures for unanticipated subsurface discovery.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

At this time no areas of controversy are known to exist.

Provide a list of the responsible or trustee agencies for the project.

California Department of Fish and Wildlife  
Central Valley Regional Water Quality Control Board  
County of Fresno  
Fresno Irrigation District  
Fresno Metropolitan Flood Control District  
San Joaquin Valley Air Pollution Control District
