

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: CEQA-24-0012 (ELLIS ROAD BRIDGE REPLACEMENT PROJECT)

Lead Agency: Yuba County Community Development Services Agency - Planning Division

Contact Name: Ciara Fisher

Email: cfisher@co.yuba.ca.us Phone Number: 530-749-5463

Project Location: Hallwood, Yuba County
City *County*

Project Description (Proposed actions, location, and/or consequences).

The Yuba County Public Works Department, in cooperation with Caltrans, is requesting an Environmental Assessment to replace the existing Ellis Road Bridge over Simmerly Slough (State Bridge No. 56C-0020) for Federal Project Number: BRLO-5916(131). The new bridge will be a single-span, cast-in-place slab structure, measuring 51 feet in length and 24 feet in width. The design will comply with current American Association of State Highway and Transportation Officials (AASHTO) standards and Yuba County requirements. The project is expected to involve minor grading of the streambed immediately adjacent to the bridge, with rock slope protection installed to safeguard the bridge embankments. The purpose of this project is to provide a structure that meets current design standards, enhancing both safety and operational efficiency. The project site is located on Ellis Road, approximately 2 miles north of Marysville and 0.2 miles east of Highway 70, in an agricultural area of Yuba County, California.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Air Quality: 1) FRAQMD Fugitive Dust Plan 2) Fugitive Dust Control for Construction
Biological Resources: 1) BMPs 2)-4) & 8)-9) Simmerly Slough 5) Mark Sensitive Area 6) Chemical Spill Kit 7) Secondary Containment 10) Emergent Wetland 11) Sanford's Arrowhead 12)-20) Giant Garter Snake 21) Northern Harrier 22)-23) Western Pond Turtle 24) Clean Construction Equipment 25) Dispose Trash & Food 26) No Herbicide 27) Avoid Wildlife 28)
Cultural Resources: 1) Inadvertent Discoveries of Human Remains 2) Inadvertent Discoveries of Cultural Material
Hazardous Materials: 1) Test for Asbestos and Lead- Based Paints 2) Procedures for Contaminated Soils 3) Accidental spills of pollutants
Hydrology/Water Quality: 1) BMPs
Tribal Cultural Resources: 1) Unanticipated/Inadvertent Discoveries Of TCRs

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provide a list of the responsible or trustee agencies for the project.

Yuba County Department of Public Works (03-YUB-County of Yuba) in cooperation with the California Department of Transportation (Caltrans)
