

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Mark Twain School Expansion Project

Lead Agency: Garden Grove Unified School District

Contact Name: Kevin Heerschap

Email: kheerschap@ggusd.us

Phone Number: (714) 663-6442

Project Location: Garden Grove, California 92841 Orange County

City

County

Project Description (Proposed actions, location, and/or consequences).

The District plans to add classrooms, office space, and play courts; reconfigure and expand parking; and add fencing improvements at the Mark Twain School site, which would disturb 5.3 acres of the 9.7 acre project site, and consolidate the District's two special education programs at the project site. The two special education programs include the Adult Transition Program, which is currently housed at the Jordan Secondary Learning Center, and the Mark Twain Special Education program currently housed at the Mark Twain School. The Adult Transition Program will relocate to the project site and the Mark Twain Special Education program will remain. The combined programs would serve approximately 194 students and would have 22 faculty members and one nurse on the project site.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project would result in a less than significant impact with the incorporation of identified mitigation measures for Cultural Resources, Geology and Soils, and Tribal Cultural Sources.

Implementation of Mitigation Measure CUL-1 would ensure, in the event archaeological resources are discovered during ground disturbing activities, that archaeological resources would be recovered in accordance with state and federal requirements. In the event that archaeological resources are discovered during ground disturbing activities all ground distributing activities shall halt and a qualified archaeologist would be retained to assess such findings. Implementation of Mitigation Measure TCR-1 would ensure that a tribal monitor be present on-site during the construction phases that involve ground-disturbing activities. Implementation of Mitigation Measure GEO-1 would ensure if resources are discovered during ground disturbing activities that paleontological resources would be recovered in accordance with state and federal requirements.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy concerning the proposed project have been identified.

Provide a list of the responsible or trustee agencies for the project.
