Project Description (Proposed actions, location, and/or consequences).

The California Department of Transportation (Caltrans) proposes to restore drainage systems on State Route 94 (SR-94) and restore pavement on State Route 188 (SR-188) in San Diego County. Ancillary work for the project includes upgrades to pedestrian and public transit amenities, signage and street lighting.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project would have less than significant effects to Biological Resources with the following mitigation measures:

1. Offset temporary impacts to arroyo toad habitat through permanent conservation of 0.21 acres of suitable habitat; and
2. Restore 0.76 acre of temporary impact area with similar species to the surrounding area.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
