

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Wastewater Plant Consolidation Project

Lead Agency: City of Rio Vista

Contact Name: Krystine Ball

Email: kball@ci.rio-vista.ca.us

Phone Number: (707) 374-6451 ext:1122

Project Location: Rio Vista

City

Solano

County

Project Description (Proposed actions, location, and/or consequences).

The proposed project would enable the transfer of wastewater treatment services to the Northwest Wastewater Treatment Plant (WWTP) and cease all operations at the Beach WWTP. The proposed project includes new force mains between 3" and 14" from the Beach WWTP to the Northwest WWTP and includes four lift stations (two new and two improved). The lift stations would pump wastewater through the new force mains to the Northwest WWTP. Additional treatment and process improvements would be made at the Northwest WWTP to add to the efficiencies of the existing process. Improvements would be made, to the extent feasible, to existing wastewater lines within existing roadways and previously disturbed right-of-way, urbanized areas, and to minimize alterations to undeveloped areas. The proposed project is needed to enable the City to improve and rehabilitate the existing wastewater service capacities and protect water quality and beneficial uses of the Sacramento River. The project is intended to enable transfer of service from the Beach WWTP and would not increase the overall capacity beyond what was previous planned.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project could result in potentially significant impacts to the following resource areas: Biological Resources, Cultural Resources, Geology/Soils, Hazards & Hazardous Materials, Hydrology/Water Quality, Transportation, and Tribal Cultural Resources. Mitigation would reduce all potential impacts from project implementation to less than significant.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.

Air Resources Board, Caltrans, Department of Conservation, California Department of Fish and Wildlife, Native American Heritage Commission, Office of Historic Preservation, Regional Water Quality Control Board, State Water Resources Control Board, Department of Toxic Substances Control, and Department of Water Resources
