Project Description (Proposed actions, location, and/or consequences).

Proposal to demolish two existing residential dwellings and related outbuildings and to construct 24 semi-detached townhomes and one detached townhome for a total of 25 residential units. This project requires approval of a Subdivision, Planned Unit Development, Residential Development Permit with Density Bonus, Park Site Review, Roadway/Roadside Exception, and Preliminary Grading Review.

The project is located on the southeast side of Mattison Lane within the community of Live Oak in unincorporated Santa Cruz County. Santa Cruz County is bounded on the north by San Mateo County, on the south by Monterey and San Benito counties, on the east by Santa Clara County, and on the south and west by the Monterey Bay and the Pacific Ocean.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
