Re: Waste Management Service Provider

Dear Michael Brendecke:

Waste Management of the Inland Empire is pleased to provide solid waste collection to the residential development project located just North of El Sobrante Avenue, South of Travertine Drive, East of McAllister Street and within Riverside County.

This development represents a total of 163 single family units. These new homes will require waste collection service by the first quarter of 2025.

This new residential phase will require 3-cart waste collection service consisting of trash, recycling, and organics service to comply with new SB 1383 regulation. Per our discussion with applicant, the collection trucks will be able to operate with no space constraints.

Should you need additional information or have any further questions, please contact me at 951-382-2175 or email at amarque6@wm.com.

Waste Management looks forward to servicing future Riverside County residents.

Sincerely,

A handwritten signature in black ink, appearing to read 'Art Marquez'.
