

NOTICE OF EXEMPTION

TO: Santa Barbara County Clerk of the Board of Supervisors and Office of Planning and Research

FROM: Greg Vine, Community Development Department

The project or activity identified below is determined to be exempt from further environmental review requirements of the California Environmental Quality Act (CEQA) of 1970, as defined in the State Guidelines for the implementation of CEQA.

Project Address: 1300 Block of West Main Street (APN: 117-180-030)

Project No.: PD2023-0014

Location: Northwest Corner of West Main Street and Kathleen Court

Project Title: Nutrien AG Solutions Planned Development Permit

Project Applicant: Tom Martinez, Martinez & Associates

Project Description: Review of a Planned Development Permit (PD2023-0014) for Nutrien AG Solutions to construct a 6,700-square-foot truck repair and driver support facility and establish outdoor storage on a 4.42-acre site in a PD/CM (Planned Development/Commercial Manufacturing) district of the West Main Specific Plan.

Name of Public Agency Approving Project: City of Santa Maria

Name of Person or Entity Carrying Out Project: Tom Martinez, Martinez & Associates

Exempt Status:

- Ministerial
- Statutory Exemption
- Categorical Exemption
- Emergency Project
- Declared Emergency

Cite specific CEQA or CEQA Guidelines Section: This is a Class 32 (Infill Development) categorical exemption based on Section 15332 of the CEQA Guidelines

Reasons to support exemption findings: This is a Class 32 (Infill Development Projects) categorical exemption based on Section 15332 of the California Environmental Quality Act Guidelines. The project is consistent with all applicable General Plan and Specific Plan policies and the Heavy Commercial/Manufacturing land use designation, the CM zoning designation, and general zoning requirements. The project site is within the City's incorporated area on a parcel that is less than five acres substantially surrounded by urban uses. The project is within a developed industrial area of the city and, based on a visual site assessment and a pattern of industrial development

surrounding the site, does not contain habitat for endangered, rare, or threatened species. Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality. The project can be adequately served by all required utilities. None of the exceptions to the exemption as outlined by Section 15300.2 of the CEQA Guidelines apply. No further environmental review is required.

The exceptions to the categorical exemptions pursuant to Section 15300.2 of the State CEQA Guidelines are:

(a) Location. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located – a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.

The project is a Class 32 exemption. Therefore, this exception does not apply.

(b) Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant.

No cumulative impacts would be generated as this site can be adequately served by existing utilities and the project is of the same scale as development nearby.

(c) Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.

No unusual circumstances are present.

(d) Scenic Highways. A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR.

No scenic highways would be impacted by the project.

(e) Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.

No hazardous waste sites are located at the project site.

(f) Historical Resources. A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.

No historical resources are located at the project site.
