Applicant:	City of Paso Robles 1000 Spring Street Paso Robles, CA 93446 Agent: Dave LaCaro dlacaro@prcity.com
Project Title:	Satellite Drainage Repair
Project Location:	3115 Propeller Drive, Paso Robles, CA Latitude: 35.67588° Longitude: -120.63808°
Project Description:	The project will work to stabilize the drainage channel and protect and enhance natural habitat. Soils with lower erosivity will be brought in to line the channel. Rip rap channel lining and check dams will be installed to slow storm water further. New culverts will be added at the north end of the project site. Channel sides will be hydroseeded upon completion. Channel grading will reduce sediment and pollutants entering the waterway. Slowed water will ensure channel stability.

**Findings:**

1. The project does not have the potential to degrade the environment.
2. The project will not achieve short-term to the disadvantage of long-term environmental goals.
3. The project does not have impacts which are individually limited, but cumulatively considerable.
4. The project will not cause substantial adverse effects on human beings either directly or indirectly.

**Determination:**

Based on the above findings, and the information contained in the initial study (made a part hereof by reference and on file in the US-LT RCD's Office), it has been determined that the above project will not have an adverse impact on the environment.
