

PUBLIC NOTICE

NOTICE OF INTENT TO PERFORM SCOUR MITIGATION

WHAT IS PLANNED

The California Department of Transportation (Caltrans) is proposing to perform scour mitigation and countermeasures on four bridges along Interstate 5 (I-5) in Colusa County, State Route 20 (SR 20) in Sutter County, and SR 70 in Butte County. Scour activity is causing degradation of the soil that provides lateral load support to the bridge foundations. Two of the four bridge structures are located on Hunters Creek on I-5 in Colusa County. Hunters Creek has an eroded north abutment slope and needs to be armored to prevent roadway stability. Sutter Bypass located along SR 20 in Sutter County is susceptible to closure due to column buckling and scour at high flows. To reduce the risk of column buckling and scour at high flows, rock slope protection would be placed at the west, middle, and east channels of the Sutter Bypass. The Dudley Creek bridge has a scour hole at the north abutment footing that needs to be armored to prevent undermining of the footing.

ENVIRONMENTAL EFFECTS

Impacts to biological resources will be less than significant with mitigation incorporated. Impacts to air quality, greenhouse gas emissions, hazards and hazardous materials, energy, transportation, geology and soils, hydrology and water quality, and noise will be less than significant.

AVAILABILITY OF DOCUMENT

The Draft Environmental Document will be available online at <https://dot.ca.gov/caltrans-near-me/district-3/d3-programs/d3-environmental/d3-environmental-docs>. Physical copies will be available at the Butte County Library Oroville Branch, 1820 Mitchell Avenue, Oroville, CA 95965; Colusa County Free Library, 738 Market Street, Colusa, CA 95932; and Sutter County Library, 750 Forbes Avenue, Yuba City, CA 95993.

COMMENTS

We welcome comments. Please submit your written comments via postal mail to: David Gould, 703 B Street, Marysville CA 95901
