Project Description: (please use a separate page if necessary)

The proposed project would involve demolition of the remaining onsite structures associated with the previous tank battery removal project and the subdivision of project site to create 46 residential lots and one common lot. Onsite vehicular access would be provided by newly created internal roadways that would provide access to residential lots throughout the site. There would be two ingress/egress connections from the private roads on the project site to the public street, Panorama Drive. Portions of the project site would also be used for drainage, infrastructure, and open space.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
