Project Title: Encinitas and Cardiff Waterline Looping Project

Project Applicant: San Dieguito Water District

Project Location - Specific:

Belleview Avenue, between Santa Fe Drive and M Street; Cornish Drive, just south of

Project Location - City: Encinitas

Project Location - County: San Diego

Description of Nature, Purpose and Beneficiaries of Project:

The project involves replacing two sections of the San Dieguito Water District's existing potable water distribution system. One segment along Belleview Avenue near downtown Encinitas, and the other along Norfolk Drive and Cambridge Avenue in the Cardiff neighborhood of Encinitas. The 8-inch diameter waterline to be installed within the public right of way of Belleview Avenue replaces an existing 8-inch asbestos cement (AC) pipe located within an easement to the west of the serviced homes. The existing waterline has reached the end of its useful life and requires replacement. The 8-inch waterline to be installed within Norfolk and Cambridge replaces a combination of 30-inch and 12-inch diameter AC pipe segments which were installed as part of a larger distribution system which was mostly abandoned.
