- Declared Emergency (Sec. 21080(b)(3); 15269(a)):

- Categorical Exemption (State Type and Section Number): 15301(c) Minor alteration of existing facility
- Statutory Exemptions (State Code Number):

Reasons why project is exempt: The proposed project involves minor alterations to an existing controlled intersection including construction of a roundabout within previously disturbed right-of-way as well as modifications to a planned multi-use path. The project is needed because the existing traffic signals at this intersection have exceeded their useful life and have been failing, requiring excessive maintenance, however replacement parts are no longer available. The project also reduces pedestrian/vehicle conflict points and develops more options for modes of travel. As such, the project represents negligible expansion of an existing use.
