

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Suisun Force Main Reliability Project

Lead Agency: Fairfield-Suisun Sewer District

Contact Name: Karl Ono

Email: kono@FairfieldSuisunSewer.ca.gov

Phone Number: (707) 428-9129

Project Location: Fairfield & Suisun City  
*City*

Solano  
*County*

Project Description (Proposed actions, location, and/or consequences).

FSSD is proposing to construct two new parallel force mains to operate in lieu of the existing Suisun Force Main to ensure service reliability. The existing force main would be inspected after the new parallel force mains are installed and either abandoned, repurposed, or rehabilitated as a separate project based on the inspection results. The project would also include installation of appurtenant infrastructure necessary for operation and maintenance of the force mains. The project alignment would extend between FSSD's Suisun Pump Station and Central Pump Station, paralleling the existing alignment where possible, but would follow a different alignment compared to the existing force main. Stormwater improvements would be located along Ohio Street between Jefferson Street and Union Avenue between the pipeline alignment and the Pacific Gas & Electric facility.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

See Attachment A

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None

Provide a list of the responsible or trustee agencies for the project.

- State Water Resources Control Board
- San Francisco Bay Conservation and Development Commission\
- San Francisco Bay Regional Water Quality Control Board
- California Department of Fish and Wildlife
- California Department of Transportation

## Suisun Force Main Reliability Project

### Summary of Significant or Potentially Significant Impacts

- Conflict with or obstruct implementation of the applicable air quality plan & increases in criteria pollutants - Measure 3.3-1: Implement the Bay Area Air Quality Management District's Basic Best Management Practices for Construction-Related Fugitive Dust Emissions
- Loss of Swainson's Hawk, White-Tailed Kite and other Raptor Nests - Mitigation Measure 3.4-1: Avoid Disturbance of Swainson's Hawk, White-tailed kite, and Other Nesting Raptor Nests
- Effects on special-status plants - Mitigation Measure 3.4-2: Avoid or Mitigate for Loss of Special-status Plants
- Effects on northwestern pond turtle - Mitigation Measure 3.4-3: Avoid or Minimize Impacts on Northwestern Pond Turtle
- Effects on Crotch's bumble bee - Mitigation Measure 3.4-4a: Implement Limited Operating Period during Crotch's Bumble Bee Colony Active Period & Mitigation Measure 3.4-4b: Conduct Focused Surveys and Implement Avoidance Measures for Crotch's Bumble Bee
- Effects on special-status and other nesting birds - Mitigation Measure 3.4-5: Avoid Disturbing Active Bird Nests Including Grasshopper Sparrow, Saltmarsh Common Yellowthroat, Suisun Song Sparrow
- Effects on special-status fish & wetlands - Mitigation Measure 3.4-6: Develop and Implement a Frac-Out Contingency Plan
- Conflicts with local policies protecting biological resources - see MMs above
- Effects on undiscovered archaeological resources - Mitigation Measure 3.5-1: Protect Unanticipated Archaeological Resource Discoveries
- Effects related to liquefaction, geologic units or soil that is unstable, & expansive soils - Mitigation Measure 3.7-1: Site-Specific Geotechnical Investigation
- Construction-related noise & excessive groundborne vibration or groundborne noise levels - Mitigation Measure 3.13-1: Implement Noise Reduction Measures
- Effects to undiscovered Tribal Cultural Resources - Mitigation Measure 3.18-1: Protect Unanticipated Discoveries of Potential Tribal Cultural Resources
