Project Description (Proposed actions, location, and/or consequences).

The California Department of Transportation (Caltrans) proposes to rehabilitate and enhance various assets on State Route 78 in eastern San Diego County, between post miles 37.2 and 60.0. Proposed improvements include pavement rehabilitation; culvert rehabilitation; Complete Streets and mobility elements, such as Americans with Disabilities Act curb ramps; and safety/roadside element improvements, including sign panels, guardrails, rumble strips, and dikes.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project would have less than significant impact with the proposed mitigation:

1. Compensatory mitigation for 0.006 acre of permanent impacts to coastal sage scrub;
2. Compensatory mitigation for 0.001 acre of permanent impacts to jurisdictional wetlands;
3. Mitigate for potential impacts to large oak trees and jurisdictional areas; and
4. Restoration of temporary impacts to 0.40 acre of native wetland and upland.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Caltrans would work with the community of Julian to incorporate comments and concerns

Provide a list of the responsible or trustee agencies for the project.
