Project Description (Proposed actions, location, and/or consequences).

Arjun and Laura Kurpad, the property owners, propose the development of a 4,529 SF single family residence with a 720 SF two-car garage and an 820 SF detached accessory dwelling unit on an undeveloped, 5.14-acre lot zoned Residential Suburban (RS) and located at 5800 Bolsa Road (APN 050-202-013). The proposed structure will have a maximum height of approximately 27'. The property will be served by the Atascadero Mutual Water Company and an on-site septic system. A proposed driveway connecting to Balboa Road will provide access to the property. Earthwork for the project will include approximately 2,150 cubic yards of cut, 2,400 cubic yards of fill, retaining walls with a maximum height of approximately 5', and typical utility trenching. No trees are proposed for removal.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Impact expected in the following areas: Air Quality, Biological Resources

Mitigation measures are combination of best management practices and recommendations by technical experts/agencies which will reduce anticipated impacts to a less than significant level.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
