The City prepared an Initial Study/Mitigated Negative Declaration (IS/MND) for this project in compliance with the California Environmental Quality Act (CEQA) and CEQA Guidelines. The IS/MND evaluated the nature and extent of any adverse effects on the environment that could occur if a project is approved and implemented. The evaluation determined that the project would not have a significant and unavoidable impact with the implementation of mitigation measures. Significant impacts were identified for Biological Resources, Cultural Resources, Hazards and Hazardous Materials, and Tribal Cultural Resources, all of which could be mitigated to less than significant levels of impact.

This is to advise that the City Council of the City of San José approved the above-described project on **February 25, 2025** and made the following determinations regarding such project:

1. An Initial Study/Mitigated Negative Declaration was prepared and completed for this project pursuant to and in compliance with the provisions of CEQA.
2. The City Council has independently reviewed and analyzed Initial Study/Mitigated Negative Declaration and other information in the record and has considered the information contained therein, prior to acting upon or approving the Project.
3. The Initial Study/Mitigated Negative Declaration represents the independent judgment and analysis of the City of San José, as lead agency for the Project.
4. This project will not have any new significant impacts on the environment.
5. Mitigation Measures were made a condition of the project.
6. A Mitigation Monitoring and Reporting Program was adopted for the project.
7. Findings were made and adopted for this project pursuant to the provisions of CEQA.

The Initial Study/Mitigated Negative Declaration, Mitigation Monitoring and Reporting Program (MMRP), and the record of project approval may be examined at the City of San José, Department of Planning, Building and Code Enforcement, 200 East Santa Clara Street, 3rd Floor Tower, San José CA 95113-1905.
