

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Victor and Cypress Avenues Active Transportation Project

Lead Agency: City of Redding

Contact Name: Amber Kelley, Environmental Compliance Manager

Email: akelley@cityofredding.org Phone Number: 530.225.4046

Project Location: Redding Shasta  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The purpose of the project is to safely accommodate active transportation, including people that walk, bike and roll. The project is needed because the roadway and trail segments included in the project area have discontinuous pedestrian and bicycle facilities, and for some sections, no facilities. The project includes: shared use pathways; sidewalk improvements; ADA compliant curb, gutter, and ramps; crosswalks, raised concrete pedestrian medians, and rapid flashing beacons; buffered bicycle lanes; lighting improvements; protected intersection improvements; a round-about intersection; wayfinding signage; and a pedestrian bridge. Construction work will consist of earthwork, trenching, vegetation removal, utility relocation, drainage installation and modification, tree planting, installation of irrigation, paving, striping, and sign replacement/installation. Utilities will be relocated as needed to implement the ADA compliant improvements. Drainage improvements include the installation, modification, removal, or replacement of the City storm drain utility infrastructure to ensure positive drainage of the non-motorized improvements.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Potential impacts to biological resources were identified and mitigation measures are proposed to avoid impacts. Preconstruction surveys will be conducted for avian species and bats during the nesting period and non-volant season.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A.

Provide a list of the responsible or trustee agencies for the project.

- U.S. Army Corps of Engineers
- Central Valley Water Quality Control Board
- California Department of Fish and Wildlife
