

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: De La Guerra Plaza Revitalization Project

Lead Agency: City of Santa Barbara, Public Works, Engineering Division

Contact Name: Beth Anna Cornett, Senior Planner

Email: bcornett@SantaBarbaraCA.gov

Phone Number: (805) 564-5537

Project Location: 20 East De La Guerra Street, City of Santa Barbara, Santa Barbara County

*City*

*County*

Project Description (Proposed actions, location, and/or consequences).

The De La Guerra Plaza Revitalization Project involves raising the road around the grass area of the Plaza, as well as raising De La Guerra Street between Anacapa Street and State Street, to be level with the existing sidewalk from building to building. This would be considered the new Plaza space and would be primarily pedestrian only. Proposed improvements include new landscaping, new surface materials throughout, an interactive water feature, restrooms, a new multi-use building/pavilion with a 506 square foot permanent stage, an approximately 20 foot by 30 foot temporary stage for larger events with associated sound equipment, multiple public art locations, new lighting, and consolidated underground trash/ recycling.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Initial Study anticipates potentially significant effects related to Cultural and Tribal Cultural Resources and Hazards and Hazardous Materials.

Potentially significant impacts to archaeological resources, historic resources, and tribal cultural resources will be discussed in the Project EIR, and applicable Mitigation Measures and Conditions of Approval will be discussed alongside the Project EIR analysis/conclusions regarding these topics.

Potentially significant hazards to the public or the environment associated with hazardous materials sites will be discussed in the Project EIR. Further analysis in the Project EIR will determine if mitigation measures are required.

No other significant or potentially significant effects of the project are identified in the Initial Study.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Members of the public and Native American tribal representatives have expressed interest in the project's potential effects on archaeological resources, historic resources, and tribal cultural resources. These topics will be discussed in the Project EIR. The Project EIR will respond to any comments, requests, or questions received by the City of Santa Barbara during the 30-day Notice of Preparation scoping period.

Provide a list of the responsible or trustee agencies for the project.

No responsible or trustee agencies have been identified for the project. The City of Santa Barbara, Public Works, Engineering Division is the lead agency for CEQA, and no other public agency approvals are required for the Project.
