

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: La Sierra High School Track and Field Project

Lead Agency: Alvord Unified School District

Contact Name: Ryan Carter

Email: ryan.carter@alvordschools.org Phone Number: 951.509.5113

Project Location: 4145 La Sierra Avenue, Riverside, CA, Riverside County

City

County

Project Description (Proposed actions, location, and/or consequences).

The project site consists of the track and field, parking lot, and tennis courts at the La Sierra High School at 4145 La Sierra Avenue in Riverside, California. The District is proposing to renovate the existing track and field; add field lighting, public address (PA) system, scoreboard, bleachers to accommodate 2,800 spectators(*); construct a 5,500-square-foot field house that would include restrooms, ticket office, storage, concessions stand, and team room(*); relocate the existing tennis courts(*); and repave and restripe the 134,000-square-foot parking lot(*). New access from the parking lot to the bleachers would be constructed(*). The proposed project would reduce the number of parking spaces by 136 parking stalls(*). The proposed project would not impact student or staff capacity at La Sierra HS. (*These design elements, while included in this analysis, are intended for a potential future project and will not be included in the scope of the current project; the current project would include a smaller scope and therefore the analysis in the DEIR will be conservative.)

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

As authorized by the State CEQA Guidelines, based on preliminary review, the District determined that it would prepare an EIR for the proposed Project, and therefore it is beginning work directly on the EIR process and will focus on potentially significant effects of the proposed project in the EIR, while briefly indicating the reasons that other effects will not be potentially significant. An Initial Study is not required to determine that an EIR will be prepared and is therefore not attached. The EIR will discuss potential environmental impacts of the proposed project, including potential preconstruction, construction, and operations impacts. The EIR will analyze potential environmental effects of the proposed project, including: Aesthetics, Air Quality, Cultural and Paleontological Resources, Energy, Greenhouse Gas Emissions, Noise, Transportation, and Tribal Cultural Resources. The project site is not on a list compiled pursuant to Government Code § 65962.5.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.
