Project Description:

The project site consists of the track and field, parking lot, and tennis courts at the La Sierra High School at 4145 La Sierra Avenue in Riverside, California. The District is proposing to renovate the existing track and field; add field lighting, public address (PA) system, scoreboard, bleachers to accommodate 2,800 spectators(*); construct a 5,500-square-foot field house that would include restrooms, ticket office, storage, concessions stand, and team room(*); relocate the existing tennis courts(*); and repave and restripe the 134,000-square-foot parking lot(*). New access from the parking lot to the bleachers would be constructed(*). The

proposed project would reduce the number of parking spaces by 136 parking stalls(*). The proposed project would not impact student or staff capacity at La Sierra HS. (*These design elements, while included in this analysis, are intended for a potential future project and will not be included in the scope of the current project; the current project would include a smaller scope and therefore the analysis in the DEIR will be conservative.)
