

**Notice of Intent to Adopt
Negative Declaration
Plumas County 2025 Regional Transportation Plan**

The proposed Project is the adoption of the 2025 Plumas County Regional Transportation Plan (RTP). The 2025 Plumas County Regional Transportation Plan will serve as the planning blueprint to guide transportation investments in the County involving local, State, and Federal funding over the next 20 years. The Project area consists of the entire County of Plumas. Each project identified in the 2025 RTP contributes to system preservation, capacity enhancement, safety, and/or multimodal enhancements. This RTP focuses on developing a coordinated and balanced multimodal regional transportation system that is financially constrained to the revenues anticipated over the life of the plan (2045). It has been determined that the proposed Project would have a less than significant impact on the environment, thus a Negative Declaration has been prepared.

The Plumas County Transportation Commission (PCTC), as the designated Regional Transportation Planning Agency (RTPA), is required by State law to prepare the RTP and transmit it to the California Department of Transportation (Caltrans) every four years. The RTP is required to be developed as per State legislation, Government Code §65080 et seq. of Chapter 2.5. The last Plumas County RTP update was adopted in 2020.

A public hearing will be held at the Plumas County Transportation Commission Meeting on December 16, 2024, at 1:30pm in the Plumas County Public Works Conference Room, located at 1834 East Main Street, Quincy, CA 95971.
