Sacramento, CA 95814

PROJECT TITLE: Alpha 1 and Ocean View 1 Channel Maintenance

PROJECT LOCATION-SPECIFIC: The Project is located in South Chollas Creek and consists of two concrete- and earthen-lined stormwater channel segments. The Alpha 1 segment (Facility No. 5-05-006) extends from east of Interstate 5 northwest of the intersection of Birch Street and Beta Street to south of the National Avenue bridge crossing east of the intersection of National Avenue and South 41st Street. The Ocean View 1 segment (Facility No. 5-05-008) extends from north of the National Avenue bridge crossing to the Ocean View Boulevard bridge crossing east of the intersection of Ocean View Boulevard and San Miguel Ave. The Project site is not located within or adjacent to the City's of San Diego (City's) Multi-Habitat Planning Area (MHPA) or the Coastal Overlay Zone. The Project is located within the Southeastern San Diego Community Planning Area in Council District 4 and 8.

PROJECT LOCATION-CITY/COUNTY: San Diego/San Diego

DESCRIPTION OF NATURE AND PURPOSE OF THE PROJECT:

The Project includes emergency maintenance activities within the concrete- and earthen-lined Alpha 1 (Facility No. 5-05-006) and Ocean View 1 (Facility No. 5-05-008) facilities which were authorized under Emergency ESL Approval No. PMT-3295213 and which were completed on January 31, 2024. The Alpha 1 and Ocean View 1 facilities were originally identified and analyzed in the Final Environmental Impact Report for the Municipal Water Maintenance Plan (MWMP EIR) and Mitigation Monitoring and Reporting Program (MMRP). Per the Hydrology and Hydraulics analysis of the MWMP EIR, both Alpha 1 and Ocean View 1 have a level of service conveyance capacity less than a 100-year storm event. Emergency maintenance activities performed as a result of the state of emergency declared across the City of San Diego in response to the January 2024 flooding exceeded the previously identified maintenance limits of the facilities' Facility Maintenance Plans (FMPs) analyzed in the MWMP EIR; however, emergency maintenance did not result in an increase in the designed conveyance capacity of the stormwater facilities. Emergency maintenance activities resulted in the removal of approximately 5,004 cubic yards (7,506 tons) of accumulated sediment, vegetation, and debris from approximately 5,032 linear feet of Alpha 1; and the removal of approximately 1,712 cubic yards (2,568 tons) of accumulated sediment, vegetation, and debris from approximately 1,765 linear feet of Ocean View 1. MMRP avoidance and minimization measures were implemented to the maximum extent practicable during emergency maintenance activities. Emergency maintenance activities did not result in adverse impacts to historical, archeological, and/or tribal cultural resources.

The Project also includes future routine maintenance activities within Alpha 1 and Ocean View 1 to restore the designed stormwater conveyance capacity of the facilities, including as-needed bank repair. Prior to future routine maintenance, a revised FMP will be prepared for each stormwater facility. Future routine maintenance activities within Alpha 1 and Ocean View 1 will comply with the rules and regulations set forth in the City's Municipal Code (SDMC) and supporting implementation documents (i.e. Biology Guidelines, Drainage Design Manual, Historical Resources Guidelines, etc.)

including but not limited to: stormwater construction Best Management Practices (BMP) implementation defined in SDMC Section 43.03.07; construction noise level limits defined in SDMC Section 59.5.0401 and 59.5.0404; grading regulations defined in SDMC 142.0101-142.0151; stormwater runoff and drainage regulations defined in SDMC 142.021-142.0230; outdoor lighting restriction defined in SDMC 142.0740; ESL regulations defined in SDMC Section 143.0101-143.0160; and historical resource regulations defined in SDMC Section 143.0201-143.0280.

NAME OF PUBLIC AGENCY APPROVING PROJECT: City of San Diego

NAME OF PERSON OR AGENCY CARRYING OUT PROJECT: City of San Diego Stormwater Department, 2781 Caminito Chollas, San Diego, CA 92105. Contact: Phillip Lizzi, Senior Planner. E-mail: plizzi@sandiego.gov. Phone Number: 619-527-7573

EXEMPT STATUS:

- MINISTERIAL
- DECLARED EMERGENCY
- EMERGENCY PROJECT
- CATEGORICAL EXEMPTION
- STATUTORY EXEMPTION: Public Resource Code Section 21080.61
- COMMON SENSE EXEMPTION

REASONS WHY PROJECT IS EXEMPT:

The City of San Diego conducted an environmental review that determined the Project would not have the potential for causing a significant effect on the environment pursuant to Public Resource Code Section 21080.61. The Project involves two stormwater channel segments with a level of service conveyance capacity less than a 100-year storm, involves channel maintenance activities which do not increase the designed conveyance capacity of the stormwater facilities, and would not result in adverse impacts to tribal cultural resources. As described above, future routine maintenance activities would implement procedures the City of San Diego has adopted by ordinance in order to minimize the impacts of construction equipment, debris, sediment, and other pollutants.

CONTACT PERSON: Edgar Ramirez Manriquez, Associate Planner
City of San Diego, City Planning Department
202 C Street
San Diego, CA 92101

IF FILED BY APPLICANT:

- 1. ATTACH CERTIFIED DOCUMENT OF EXEMPTION FINDING
- 2. HAS A NOTICE OF EXEMPTION BEEN FILED BY THE PUBLIC AGENCY APPROVING THE PROJECT?
 YES NO

IT IS HEREBY CERTIFIED THAT THE CITY OF SAN DIEGO HAS DETERMINED THE ABOVE ACTIVITY TO BE EXEMPT FROM CEQA.

Rebecca Malone, Program Manager
