Project Description

The San Francisco Municipal Transportation Agency (SFMTA) proposes to implement pedestrian and bicycle safety improvements on Dr. Carlton B. Goodlett Place between McAllister and Grove streets (project). The project would upgrade the existing Class II bike lanes to Class IV separated, parking-protected bikeways that connect to the existing separated bike lanes north and south of the project area on Polk Street. To accommodate the improvements the project would convert back-in angled parking on the east side of Dr. Carlton B. Goodlett Place to parallel parking and remove one of the two southbound travel lanes between McAllister Street and the midblock crossing on Dr. Carlton B. Goodlett Place. The project would also include concrete protected corners for people riding bicycles at the intersections of Dr. Carlton B. Goodlett Place with McAllister and Grove streets. New islands at the midblock crossing in front

of City Hall would improve pedestrian safety. The project would also repave Dr. Carlton B. Goodlett Place between the intersections of McAllister and Grove streets.

Determination

The City and County of San Francisco decided to carry out or approve the project on October 1, 2024, when the SFMTA Board of Directors approved the project. The project was officially approved on November 1, 2024, when no appeal of the statutory exemption was filed during the 30-day appeal period. A copy of the documents may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in file no. 2024-007872ENV.
