Project Title: Watsonville Slough Farm Community Harvest Project

Lead Agency: County of Santa Cruz

Contact Name: Randall Adams

Email: Randall.Adams@santacruzcountyca.gov Phone Number: 831-454-3218

Project Location: Watsonville Santa Cruz  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The proposed project would result in structural and site improvements to support operation of the proposed Community Harvest Program at the Watsonville Slough Farm that is owned and managed by the Land Trust of Santa Cruz County (Land Trust). The Program calls for opening up areas on the Farm to local families and other visitors so they can harvest fruits and vegetables for their own consumption while learning about healthy food and sustainable agricultural practices. A reconstructed barn, new restrooms, picnic areas, parking improvements, trails and a number of other minor improvements are proposed to support the Program. In addition, the Project includes development of four agricultural worker residential units.

The proposed project is located at 275 Lee Road on the west side of Lee Road and Highway 1 within the southern portion of unincorporated southern Santa Cruz County; see Figure 1. Santa Cruz County is bounded on the north by San Mateo County, on the south by Monterey and San Benito counties, on the east by Santa Clara County, and on the south and west by the Monterey Bay and the Pacific Ocean.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources- Mitigation measures include: pre-construction surveys, areas protected during construction, exclusion fencing, construction worker training, biological monitoring during construction, and construction timing.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
