Project Title: Benjamin Holt Water Main Replacement

Project Location: See attached vicinity map

Description of Nature, Purpose, and Beneficiaries: See attached project description

Public Agency Approving Project: San Joaquin County Public Works Department

Name of Agency Carrying Out Project: San Joaquin County Public Works Department

This is to advise that the San Joaquin County Public Works Department has approved the above described project on 10/17/24 and has made the determination that the project is exempt due to the following:

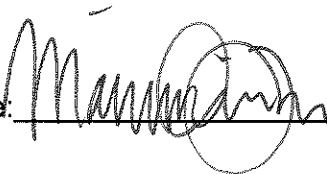

Exempt Status (check one):

- Ministerial (Sec. 21080 (b) (1); 15268)
- Declared Emergency (Sec. 21080 (b) (3); 15269(a))
- Emergency Project (Sec. 21080 (B) (4); 15269(b) (c))
- Categorical Exemption: Existing Facilities (Sec. 15301(b), 15304(f))
- Statutory Exemption (Sec. 15282(l))

Reason(s) why project is exempt: The project will replace deficient portions of the existing water distribution system to decrease leaks.

BENJAMIN HOLT WATER MAIN REPLACEMENT

Project Description

Project Location:

Lincoln Village Maintenance District: Benjamin Holt Drive from Gettysburg to Pershing Avenue. See attached Vicinity Map.

Project Justification:

The Lincoln Village Maintenance District water distribution system was installed between 1949 and 1961. The water distribution system consists of approximately 102,000 linear feet of asbestos cement (ACP) and steel water main piping ranging in size from 4-inch to 12-inch and decommissioned storage tank. The Lincoln Village water distribution system has three operational interconnected locations with the City of Stockton water supply system.

The existing water distribution system is aging and is prone to leaking. The proposed project is located in this affected area and will replace a portion of the existing water mains. Residential water service connections are unmetered. Existing water mains and service connections are located in backyard easements, making access and maintenance difficult.

Scope of Work:

The project will consist of:

1. Installing approximately 2,304 lineal feet of new water main, valves, fire hydrants, and 37 water service connections with meter boxes with the necessary appurtenances along Benjamin Holt Drive between Gettysburg & 200 feet west of Pershing Avenue. The water mains will not be connected to existing water system until a future second phase of the Lincoln Village Water Main Upgrade occurs.

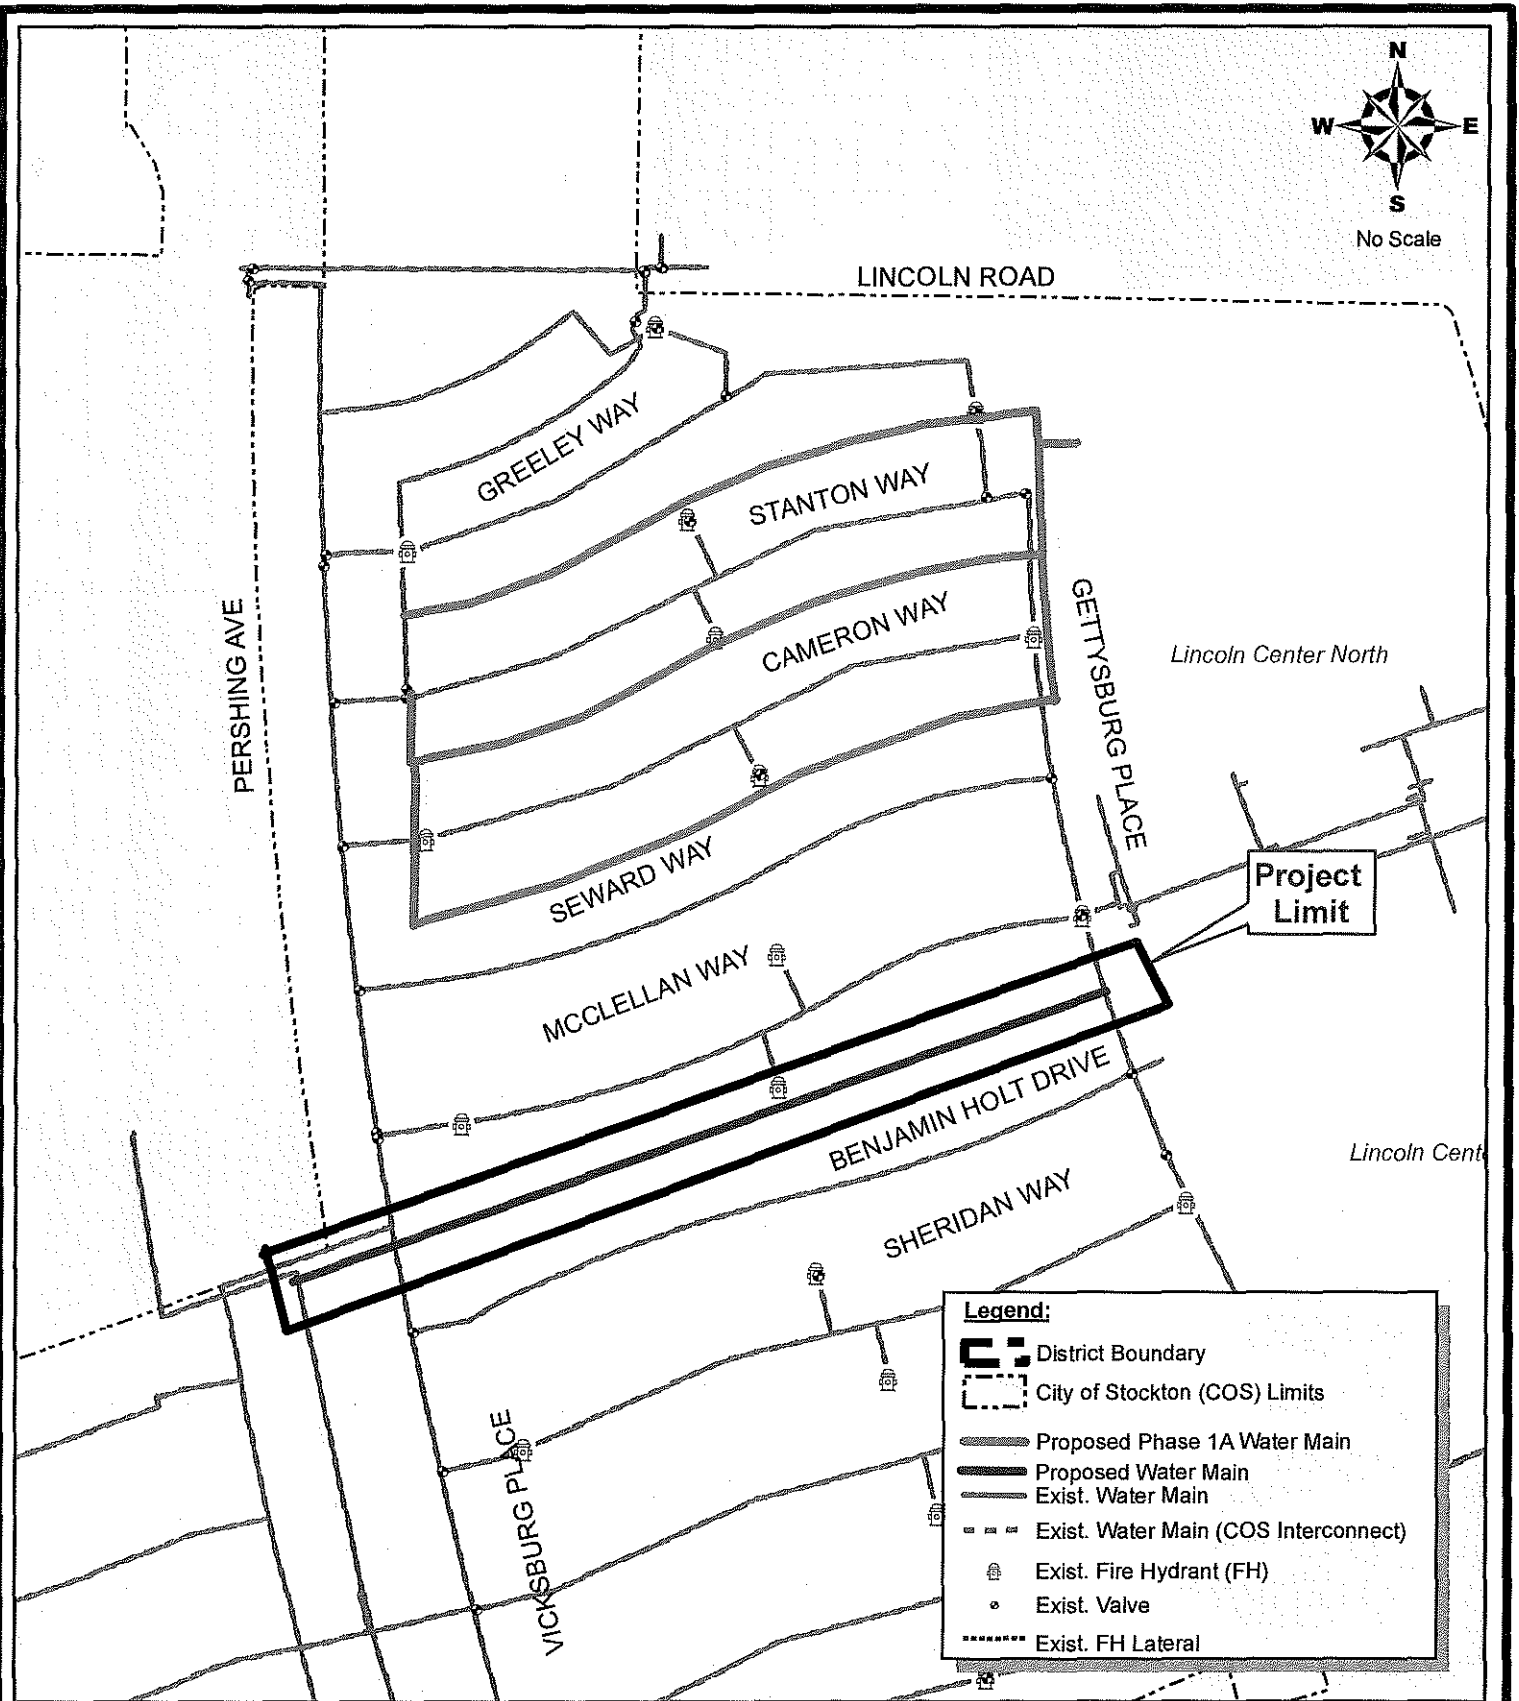

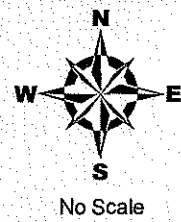

Environmental Setting:

In these portions of the San Joaquin County, land usage is primarily **residential with single family homes**.

There are many large trees adjacent to the project area. Nesting and migratory birds, protected by the Migratory Bird Treaty Act, may nest within these trees. Furthermore, the Swainson's Hawk, a raptor species of concern within the State of California and listed as threatened may nest adjacent to or within the project area. A pre-construction survey for nesting Swainson's Hawks and other migratory birds is recommended if construction is scheduled to occur from February 15th to September 1st.

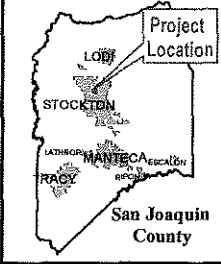

Beneficiaries:

The public will see decreased maintenance needed for the water distribution system, resulting in smoother operations. Additionally, the district will conserve water by eliminating water losses through leaks in the water main.
