Project Description: (please use a separate page if necessary)

Sacramento County Department of Transportation (SacDOT) proposes to construct the Elkhorn Boulevard Complete Streets Project (project), including a separated Class IV bikeway, Class II bike lanes, green striping, intersection improvements with signal modifications/video detection, bus turnouts, an ADA accessible bus stop, and closure of one sidewalk gap along Elkhorn Boulevard (between Cantel Way and Thomas Drive). Improvements are also proposed along a portion of Walerga Road and Don Julio Boulevard (north and south of the Elkhorn Boulevard intersection). A non-infrastructure component that would implement Safe Routes to Schools and community education and encouragement programs is also included as part of the project. The overall construction area of the project would be approximately 3.29 acres and includes approximately 1.51 acres for improvements to sidewalk, curb and gutter, curb ramps, and pavement rehabilitation adjacent to curb lines and approximately 1.78 acres for pavement rehabilitation. The maximum excavation depth during project construction would be 13-feet for the signal pole foundations.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: _____

Project Title: Elkhorn Boulevard Complete Streets

Lead Agency: Sacramento County

Contact Name: Julie Newton

Email: newtonj@saccounty.gov Phone Number: 916-874-6141

Project Location: Unincorporated Sacramento County (North Highlands/Old Foothill Farms) Sacramento
City *County*

Project Description (Proposed actions, location, and/or consequences).

Proposed Actions:

Sacramento County Department of Transportation (SacDOT) proposes to construct the Elkhorn Boulevard Complete Streets Project (project), including a separated Class IV bikeway, Class II bike lanes, green striping, intersection improvements with signal modifications/video detection, bus turnouts, an ADA accessible bus stop, and closure of one sidewalk gap along Elkhorn Boulevard (between Cantel Way and Thomas Drive). Improvements are also proposed along a portion of Walerga Road and Don Julio Boulevard (north and south of the Elkhorn Boulevard intersection). A non-infrastructure component that would implement Safe Routes to Schools and community education and encouragement programs is also included as part of the project.

Location: The project is located along Elkhorn Boulevard, between the intersections of Watt Avenue and Don Julio Boulevard, in the North Highlands community.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Project impacts would occur in the following resource areas: Air Quality, Biological Resources, Hazards and Hazardous Materials, and Cultural Resources/Tribal Cultural Resources. Standard mitigation for basic construction emissions control practices will reduce project impacts to air quality to less than significant under CEQA. Mitigation requiring non-native tree canopy replacement and tree surveys during nesting season for migratory birds/raptor nests will reduce project impacts to biological resources to less than significant under CEQA. Mitigation requiring a site investigation for soil testing prior to project construction will reduce project impacts to hazards and hazardous materials to less than significant under CEQA. Mitigation requirements for the inadvertent discovery of cultural and tribal cultural resources, if discovered during project construction, and tribal monitoring will reduce project impacts to less than significant under CEQA.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy known to the Lead Agency.

Provide a list of the responsible or trustee agencies for the project.

Sacramento Municipal Utility District (SMUD), Pacific Gas and Electric (PG&E), Governor's Office of Planning and Research, Sacramento Regional County Sanitation District (SRCSD), Sacramento Area Sewer District (SASD), AT&T, Sacramento Suburban Water District, and Sacramento Air Quality Management District (SMAQMD).
