

Summary Form for Electronic Document Submittal

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Hazel M. Bailey Primary School Expansion

Lead Agency: Firebaugh Las-Deltas Union School District

Contact Name: Daniel S. Barragan, Maintenance Operations and Transportation Director

Email: dbarragan@fldusd.org Phone Number: (559) 659-1476

Project Location: Firebaugh Fresno

City

County

Project Description (Proposed actions, location, and/or consequences).

The proposed Project would include the construction of seven new buildings ranging from 2,840 square feet to 5,705 square feet. The seven new buildings would contain 14 new classrooms in total. The new buildings proposed by the District would be used as transitional kindergarten classrooms to accommodate existing student capacity and would not increase enrollment. The proposed Project would also include a new fire lane with the addition of two fire hydrants connecting to an offsite fire hydrant and the addition of new concrete walkways throughout the site. Existing turf and planter areas on the Project site would be rehabilitated as part of the Project. The Project would include the installation of new signage and accessibility features including an accessible drinking fountain and accessible chain link gate. Several trees, curb cut ramps and portions of chain link fence would be removed for new construction and site improvements. No existing structures would be demolished as a result of the Project.

The Hazel M. Bailey Primary School campus encompasses approximately 14 acres. The school is located east of Q Street and north of Saipan Street in Firebaugh, California. The Hazel M. Bailey Primary School is a multiple-building, public educational property located in the southeastern area of Firebaugh, immediately to the south of Dunkle Park and across S Street to the southwest of the San Joaquin River. The campus is located along the east side of Q Street, within the northeastern portion of the parcel identified as APN 008-020-63T. The campus also includes two smaller parcels, 008-020-66T and 008-020-64T, located between the Hazel M. Bailey School building's northwest side and the south corner of Dunkle Park. The Project site where project activities including ground disturbance and construction would take place is an approximately 46,000 square-foot area in the southeastern portion of the Hazel M. Bailey Primary School campus.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

This project would potentially affect the following environmental factors of Cultural Resources, Air Quality, Biological Resources, Geology/Soils and Hazards and Hazardous Materials. The following measures are recommended to reduce impacts to be less than significant: *AQ-1 Construction Emissions Reduction, BIO-1 Nesting Bird Avoidance and Minimization, CUL-1 Unanticipated Discovery of Cultural Resources, GEO-1 Unanticipated Discovery of Paleontological Resources, and HAZ-1 Soil and Gas Management Plan*. Implementation of the mitigation measures mentioned would therefore not cause substantial adverse effects on human beings.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

Firebaugh Las-Deltas Union Schools District is the lead agency for this Project. Other public agencies whose approval may be required for the Project include the following: State Water Resources Control Board (SWRCB) – approval of the SWPPP under the statewide, NPDES Construction General Permit and approval of the SWPPP under the statewide NPDES Industrial General Permit, California Division of State Architects (DSA), and Office of Public-School Construction (OPSC)
