Project Description

Caltrans is proposing a culvert asset management project located along Interstate 5 (I-5) at the Cristianitos Road overcrossing in north coastal region of San Diego County. Six (6) culverts from postmiles R72.09/ R72.31 were identified as needing repair to assess and improve drainage capability. Work on these drainage assets will include cleaning, a pre-inspection via a remote operated camera and close circuit television to assess culvert conditions and installing a resin-impregnated Cured-In-Place-Pipe (CIPP) liner to rehabilitated drainage assets. Curing of pipe liners with water at drainage system 570054007207 is prohibited and must be cured with ultraviolet lighting. Environmental conditions are listed in the project's Environmental Commitments Record (ECR).
