Present Land Use/Zoning/General Plan Designation:

Mixed Community Use, Recreation, and Commercial.

Project Description: *(please use a separate page if necessary)*

The Los Alamos Connected Community project proposes to construct pedestrian and bicycle infrastructure for 0.9 mile of State Route 135 to connect residential areas to the downtown community corridor and Olga Reed Elementary School in Los Alamos. The project focuses on Complete Streets elements and will construct 4,800 feet of new sidewalk, 6,215 feet of buffered bike lanes, 575 feet of reconstructed sidewalk, 42 ramps compliant with the Americans with Disabilities Act, 17 traffic-calming curb extensions, and 23 marked crosswalks. Other project elements include the addition of 10 benches, 7 trash cans and street lighting. The current capital construction cost estimate is \$5,800,000. The current capital Right of Way cost estimate is \$377,900. This is the first Caltrans project to receive Active Transportation Program funding from the California Transportation Commission. Tree removal and pruning may be needed to construct project elements on State Route 135. Tree removal locations will be refined throughout project development, and pruning will be in accordance with standard practices and proposed measures. The project will require a Traffic Management Plan to minimize and manage traffic delays during construction. Night work is not currently expected.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
