

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Bracher Elementary School Master Plan Project

Lead Agency: Santa Clara Unified School District (SCUSD)

Contact Name: Michal Healy, Director of Facility Development and Planning

Email: mhealy@scusd.net

Phone Number: (408) 423-2085

Project Location: Santa Clara

*City*

Santa Clara County

*County*

Project Description (Proposed actions, location, and/or consequences).

The Santa Clara Unified School District has prepared a Master Plan intended to modernize the campus and update facilities for current and projected school needs at Bracher Elementary School. Full buildout of the Master Plan includes a new multipurpose building, cooking kitchen, shaded outdoor lunch area; new preschool, transitional kindergarten, specialized academic instruction classroom buildings, and play area with shade; metal PE shade structure, new driveways and parking, and accessibility, utilities, paving, fencing, and roofing improvements. Full build out would ultimately support 35 classrooms and a maximum capacity of 870 students, which represents eight more classrooms and 205 more students than are currently accommodated. Other improvements include field improvements, classroom modernization, replacement of portables with permanent buildings, additional student support spaces, maker space, an administration building. The intent of the Master Plan is to modernize the campus and update facilities for current and projected school needs. Currently, funding has only been identified for Phase 1 with other improvements identified in the Master Plan to be completed as funding becomes available for each phase.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Impact BIO-1: Nesting Birds.

Mitigation Measure BIO-1: Avoid active nests by scheduling construction outside of nesting season and conducting Pre-Construction Surveys.

Impact BIO-2: Glare and Bird Mortality.

Mitigation Measure BIO-2. Implement Bird-Safe Building Design.

Impact CUL-1: Unknown buried cultural resources and prehistoric Native American burials.

Mitigation Measure CUL-1a: Note potential for discovery on Project Plans. Mitigation Measure CUL-1b: Retain an on-call Archaeologist. Mitigation Measure CUL-1c: Prepare Monitoring Closure Report.

Impact CUL-2: Inadvertent discovery of human remains. Mitigation Measure CUL-2: Contact County Coroner.

Impact GEO-1: Paleontological resources.

Mitigation Measure GEO-1: Stop-work provision if paleontological resources are encountered

Impact NOI-1: Construction Noise. Mitigation Measure NOI-1: Measures to reduce Construction Noise Levels.

Impact TR-1: The project would increase VMT. Mitigation Measure TR-1: Implement Transportation Demand Management measures to reduce the VMT.

Impact TCR-1: Native American Artifacts. Mitigation Measure TCR-1: All Native American artifacts (tribal finds) are considered significant until the lead agency has enough evidence to make a determination of significance.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.
