

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Location: 15390 Lambert Road, City of Whittier, Los Angeles County, CA

City

County

Project Description (Proposed actions, location, and/or consequences).

The proposed 22-008 Parnell Park Renovation and Improvements Project involves the renovation of the existing Parnell Park. Park improvements would include the construction of new sports fields and an Americans with Disabilities Act (ADA)-compliant playground with a splash pad, updated restrooms, picnic pavilions and lawns, upgraded pedestrian paths, lighting, landscaping and irrigation, and parking/circulation improvements.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Draft Initial Study with Mitigated Negative Declaration (IS/MND) identified the following factors as having impacts that are "Less Than Significant" or "Less Than Significant Impact with Mitigation Incorporated": aesthetics, biological resources, cultural resources, geology and soils, hazards and hazardous materials, recreation, transportation, tribal cultural resources, and mandatory findings of significance. Impacts would be reduced to "Less Than Significant with Mitigation Incorporated" through the implementation of Mitigation Measure AES-1 (operational field lighting), BIO-1 (nesting birds), CUL-1 (discovery of cultural resources), GEO-1 (monitoring and discovery of paleontological resources), REC-1 (temporary park closures during construction), TRA-1 (Traffic Management Plan), and TRC-1 (monitoring and discovery of tribal cultural resources).

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy have been identified.

Provide a list of the responsible or trustee agencies for the project.
