

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Mountain View Public Safety Building

Lead Agency: City of Mountain View

Contact Name: Naveen Govind

Email: Naveen.Govind@mountainview.gov

Phone Number: 650-903-6527

Project Location: Mountain View
City

Santa Clara County
County

Project Description (Proposed actions, location, and/or consequences).

The proposed project would remove the existing Mountain View Police Department (MVPD) building and associated parking lot and K-9 training area, and construct a new Public Safety Building, parking garage, indoor shooting range, surface parking, and K-9 training area at the same location. In the eastern corner of the project site, a 0.6-acre area would remain undeveloped for future potential uses by the City. The current MVPD building is 44,914 square feet and the proposed Public Safety Building would be approximately 75,000 gross square feet, three-stories high, and a floor area ratio (FAR) of 0.49. The proposed Public Safety Building would have a variety of offices and associated service rooms for police and fire activities. Some of the designated areas include an auditorium, offices, sleep quarters, lockers, and a fitness room. As part of the proposed project, a three-story parking garage with approximately 168 parking spaces would be built on the site. At the top of the parking garage, an indoor shooting range would be installed. The K-9 training area would be reinstalled in the northern corner of the project site. In addition, the proposed project would include improved landscaping and would have four vehicular access points.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The EIR for the proposed project will address the range of impacts that could result from adoption and implementation of the proposed Mountain View Public Safety Building. The following environmental topics will be examined in the EIR: air quality, biological resources, cultural resources, geology and soils, greenhouse gas emissions, hazards and hazardous materials, noise, transportation, and tribal cultural resources.

The topics found to be less than significant or no impact in the Initial Study and will not be analyzed in the EIR include aesthetics, agricultural resources, energy, hydrology and water quality, land use and planning, mineral resources, population and housing, public services, parks, recreation, utilities and system services, and wildfire.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
